A GENEALOGIST'S INDEX  
TO  
BROCKTON, MASSACHUSETTS

At first glance Kingman's book seems to be a welcome exception to the general run of local histories. It has an index; in fact, it has three -- general, subjects of biographies, and portraits. Unfortunately, as anyone using this 936-page volume soon discovers, the coverage is anything but complete, especially if genealogical material is sought. Kingman himself noted that lists were not indexed, and on those lists are hundreds of names. In addition to the usual categories found in local histories may be noted pew holders of 1740, 1761 and 1827; deserters from Company F, 12th Regiment, 1861 to 1863, and local high school graduates, 1867 to 1893. These lists may be located by consulting the table of contents.

What is more serious, from a genealogist's standpoint, is that whole sections of the book given to biographical sketches, and hence full of family data, are indexed only under the names of biographies.

In making the present index an attempt has been made to include every name of genealogical significance; that is, each name for which a family connection or a vital date is given. More than 1600 names of this kind are here located. Used with Kingman's own indices and table of contents, this index makes it possible to find practically any material Brockton contains.

It is important to note that the book is paged continuously up to page 814 and then starts over and goes on to page 122. For convenience, pages in the first set have been underlined. That is, a name in this index followed by '48' is to be found at the back of the volume; one followed by '48', at the front.

Generations, where shown in the text or readily deduced from it, are given in parenthesis. For example, 'Alden, John (1)' refers to the founder of the family; 'Alden, Joseph (2)' refers to his son.

The usual cross references appear in this index as well as identifications, where possible, to distinguish between two people of the same name.

The compiler hopes that this index will bring new usefulness to Kingman's painstaking work in compiling the history of Brockton.
